

How fast is **your** media transcoding?

*Rhozet Carbon Coder is the world's **fastest** Flash encoder, and the most **flexible**, too! Carbon Coder supports **all major streaming formats**, and is fully customizable to fit your workflow and your ever increasing workload.*

**Rhozet Universal Media Transcoding: It's **flexible**, it supports **all major formats** and it's **fast**!**

Rhozet media transcoding solutions fit into your workflow and fly through your ever-increasing workload. Run Rhozet Carbon Coder software as a stand-alone application or as part of a multi-node, fully-automated rendering farm under the control of Carbon Server. Plus, Carbon Coder manages a wide array of critical operations including PAL/NTSC conversion, logo insertion, segment extraction, and more. All Rhozet products provide an easy-to-use interface, as well as an XML-based SDK for complete programmatic control.
